“Garden of Life”

May 2013

Dear Friends:

It looks like Spring has arrived, and with it comes an entire season of possibilities ~ sunshine, time spent outdoors, warm soil, new life, the first pussy willows. They all provide a reason to celebrate.

Most people know the foundation provides money to acquire furnishings and equipment. You may not know it funds the Spiritual Care program that residents and their families' value. It provides opportunities for staff education and for transportation of Residents for functions organized by the Home.

ALL of us want those we love to be comfortable and well cared for. Time and again we hear from Mont St. Joseph families, “we are so grateful that Mont St. Joseph Home exists”. The reality is that Government funding must be supported by our community's generosity if we are to meet the holistic needs of our Residents. It is why the Mont St. Joseph Foundation exists – to ask people, businesses and groups to remember Mont St. Joseph Home when making charitable donations. Your contributions make such a difference to the people who live here.

We know that every dollar contributed to our foundation allows us to better the lives of our Residents. We know how important your donation is to our Home. We will be raising funds this year to purchase raised garden beds and items to have along our new Resident sidewalk that circles MSJ building to give our residents and their loved ones different opportunities to be with each other and Nature this Spring, Summer & Fall. Thank you for your continued support of our Home. Happy Spring!

Sincerely,

Ron Bergen, Chairperson
Mont St. Joseph Foundation
